

Brother 1034d Serger Presser Foot Not Working

This is a great illustration of what to check if your stitching is wonky and you recently changed presser feet. Credit to our member Carin Oppelt for supplying a great photo answer

This is how Rosemary's presser foot was installed (with the black tension bar below the foot)

Brother 1034d Serger Presser Foot Not Working

Here is how it should look with the presser foot installed correctly – thanks Carin Oppelt!

Carin Oppelt

I actually just had this problem last night! This piece here is supposed to be on top of the presser foot, yours is under!
