

Rolled Hem: Need Better Coverage?

Karen Wood ▶ Brother 1034D Serger Tips

I've been trying to sew a white rolled hem onto navy blue poly/cotton very light denim. Tried and tried to get coverage so the navy fabric was not showing through the hem to no avail. So, I threaded 2 spools of white maxi-lock stretch thread through the upper looper. What can I say except, It Worked Great! "Practically perfect in every way." (Mary Poppins comment)
